Compact, flexible, clever:
One 10.8 volt battery for all tools!

Make it your home with the 10.8 volt cordless system from Bosch. Whether in the house or garden, the tools impress with their compact power and increased runtime thanks to the latest lithium-ion technology.
First roll your sleeves up.

Work cleverly and feel comfortable sooner! This is no problem with the 10.8 volt tool system from Bosch. All you need is one battery and one charger to use every one of the many compact tools for your house and garden work. This saves you time and money – and the result will be impressive.
Later put your feet up.

You can now also discover the 10.8 volt cordless system from Bosch online:

www.bosch-power4all.com
One battery for all tools: Welcome to the 10.8 volt cordless system!

Do you have so many projects that you don’t know where to begin? Then you should begin with the 10.8 volt battery from Bosch! It fits all compact tools in the 10.8 volt tool system and has enough power from the first to the last job. Insert the 10.8 volt battery into the tool you want to use, and start working. When you’re finished with one job, take the battery out and put it in the next tool – it couldn’t be easier.

The 10.8 volt battery is now available with 1.5 Ah: this new battery technology from Bosch offers a 15% longer battery runtime.

Compact, flexible, clever: One 10.8 volt battery for all tools!

Save money with the 10.8 volt cordless system.

Purchase 1 x tool + battery + charger in a set:
- 1 x 10.8 volt tool (e.g. PSR 10,8 LI-2)
- 1 x battery
- 1 x charger

Purchase additional tools cost-effectively without a battery and without a charger:

Also available individually:
- Battery
- Charger
Intelligent lithium-ion technology from Bosch.

For more power and greater endurance – according to what is needed. Cordless tools from Bosch always draw the optimum amount of energy thanks to their intelligent electronic control system.

From driving a thick screw, to drilling into a concrete wall – a lot of power is required for demanding applications. In easier applications, the runtime is what counts – for example when driving many small screws. Cordless tools from Bosch always draw the optimum amount of energy according to what is needed thanks to their intelligent electronic control system. The result: more power and, at the same time, greater endurance. The latest generation of lithium-ion technology from Bosch – developed with the experience of 10 years of Bosch battery research.
Maximum power and, at the same time, greater endurance.

- **NiCd**

Maximum power – demanding applications:
- Sawing through hard wood, drilling in a concrete wall, driving a thick screw.

Maximum endurance – easy applications:
- Cutting soft wood to size, drilling in masonry, driving many small screws.

Smart Lithium-Ion Technology from Bosch
- Conventional NiCd cordless tools

The advantages of lithium-ion technology:

- **Maximum power.**
  - When needed, more performance for jobs that require high power.

- **Maximum endurance.**
  - Long runtime for jobs that require more endurance but less power.

- **Ready to use at any time.**
  - Lithium-ion batteries are ready to use at any time. No memory effect, no self-discharge.

- **Long lifetime.**
  - High-quality batteries with long lifetime. Electronic Cell Protection (ECP) to prevent overheating and overload.

- **Compact design.**
  - Cordless tools with lithium-ion technology impress due to their compact design and low weight.
Collect experience.

Not batteries.

Now you can put an end to batteries and chargers that don’t match each other and only take up space and cost money: everyone is there for each other in our compact 10.8 volt system. This means: one battery and one charger for all 10.8 volt tools. By the way, all tools in the 10.8 volt system are recognisable by the “Power4All” logo.
Compact power. Which sits comfortably in your hand.

The 10.8 volt two-speed drill/driver with lithium-ion technology enables you to complete screwdriving and drilling work quickly and reliably. Compact in size, this lightweight screwdriver sits comfortably in your hand – perfect also for work in difficult positions.
**PSR 10,8 LI-2**
Cordless Drill/Driver

2-speed gearbox
For power and speed

Controlled power output
Due to 20 + 1 torque settings

Easy handling
Thanks to keyless chuck

Compact
Thanks to innovative gear housing

Powerful motor
With forward/reverse rotation

For hammering, drilling and screwdriving.

The compact rotary hammer can handle any surface: with the world’s smallest pneumatic hammer mechanism it hammers, drills and drives screws into any surface – even concrete. Simply throw the switch and this powerful 3-in-1 tool will automatically change gear. 1st gear: screwdriving with high torque. 2nd gear: high speed and impact rate when drilling and hammering.
**Uneo**
Cordless Rotary Hammer

**Bosch SDS-Quick system**
For fast drill and screwdriver bit changes

**Compact**
Thanks to innovative gear housing

**Powerful motor**
For powerful performance

---

**Hammering, drilling and screwdriving**
Select the function and the gear will change automatically: screwdriving in 1st gear with high torque. Drilling and hammering in 2nd gear with high speed and impact rate

---

**Pneumatic hammer mechanism**
Maximum impact force even for the hardest concrete.

* EPTA
Compact power.
For more material removal on demand.

Whether surfaces, corners or edges: the cordless multi-sander sands every surface perfectly. Handy and compact, it reaches every angle with its iron-shaped sanding plate and automatically increases the material removal rate when increased pressure is applied thanks to its intelligent Power Automatic.
PSM 10,8 LI
Cordless Multi-Sander

Power Automatic*
More power when more pressure is applied

Low in vibration
For effortless sanding

*Power Automatic
The PSM 10,8 LI automatically increases its power and therefore the material removal rate when increased pressure is applied.

Ergonomic
Long handle with softgrip for one or two handed operation

Vacuum cleaner connection
For low levels of dust when working

Compact power.
For precisely cutting to size and easily sawing off.

From sawing off branches in the garden, through to cutting laminate to size in the house: the multisaw really lives up to its name. It can be used both as a sabre saw and as a jigsaw. Thanks to the convenient 1-hand SDS system, you can press with your thumb to eject the saw blade and then use it in the desired direction. It’s innovative in every way.
PST 10,8 LI
Cordless Multisaw

**Patented SDS system**
With click function for safe and easy saw blade changes with one hand and in both sawing directions

**Electronic switch**
For material-specific use and a soft sawing start

**Lock-off switch**
For maximum safety

**Compact and lightweight**
Ergonomic design and softgrip ensure perfect handling

**Low in vibration**
Work without fatigue
